ENGINEERING PROJECTS

Delta Upsilon Mental Health Awareness 5K Website | HTML, CSS, Backend, Stripe

- Designed and developed a full-stack event website from initial concept through deployment.
- Built the front-end for event information, registration, donations, and event resources; developed a backend to collect and manage participant registration data.
- Integrated Stripe payment processing for registration fees and donations; configured the custom domain, DNS, hosting, and deployment while independently troubleshooting technical issues.

EXPERIENCE

Intramural Sports Referee — Bradley University | Peoria, IL | Oct 2024 – Present • Officiate over 100 intramural sports while making quick decisions and maintaining a safe, organized environment.
• Communicate rules and decisions clearly with participants, supervisors, and event staff; coordinate facility and equipment preparation.

Stocker / Cashier — Dollar General | Elwood, IL | Mar 2023 – Aug 2026 • Provide customer service and resolve problems effectively in a fast-paced environment. • Maintain organized inventory, operate POS systems, and accurately handle customer transactions. • Demonstrate consistent reliability through a strong attendance record.

LEADERSHIP & ACTIVITIES

Delta Upsilon Fraternity — Executive Board Member (2025-2026)

- Participate in organizational planning, event coordination, and member engagement initiatives for over 60 fraternity members.
- Worked with a budget of approximately \$800 to support event planning.

SAE Framework Member (Present)-

- Collaborated with a small group of 6 to put together a framework for the Formula car,
- Designed headrest and other adjustments to optimize the structure of the car
- Implemented a strategy on the front end of the Formula car to lower the weight on it
